SANTIAGO CAMPAIGN,

From Inception to Destruction
of Cervera's Fleet.

SAMPSON'S OFFICIAL REPORT

Made Public at Last by Officials of
the War Department.

MOOTED QUESTIONS SET TO REST.

Side Lights Thrown Upon the Instruc-
tions, Movements and Operations
of the American Squadron
While Trailing Cer-
vera's Ships.

Washington, Oct. 24.—The navy department has made public that portion of Admiral Sampson's report covering the conduct of the fleet under his command, in its operations in the West Indies for about two months prior to the destruction of Admiral Cervera's ships on July 3.

The report is dated Aug. 3, on the flagship New York, and begins with a statement of the determination reached by the navy department to send a squadron to the Windward passage for the purpose of observation, because of information received of the sailing April 29 of Admiral Cervera's squadron from the Cape Verde islands. On the voyage eastward from the naval base at Key West, which began May 4, Admiral Sampson reports there was experienced endless trouble and delay because of the inefficiency of the two monitors accompanying the other ships and which had to be taken in tow. Their coal supply was so small that it was at once evident that they must either frequently coal or be towed.

Among the telegrams received by the admiral from the department at Washington when off Cape Haitien was the following:

"Do not risk or cripple your vessels against fortifications as to prevent from soon afterwards successfully fighting Spanish fleet composed of Pelayo, Carlos V, Oquendo, Vizcaya, Maria Teresa, Cristobal Colon and four deep sea torpedo boats, if they should appear on this side. Long."

STORMING OF SAN JUAN.

On May 8 there was a consultation on board the flagship, and the admiral says that he decided to stand on the eastward as far as San Juan, Porto Rico, on the chance of finding the Spanish squadron in that port. The squadron arrived off San Juan on the 12th and the bombardment of the place ensued.

Regarding this action at this place the admiral says: "It was clear to my own mind that the squadron would not have any great difficulty in forcing the surrender of the place, but the fact that we should be held several days in completing arrangements for holding it; that part of our force would have to be left to await the arrival of troops to garrison it; that the movements of the Spanish squadron, our main objective, were still unknown; that the flying squadron was still north, and not in a position to render any aid; that Havana, Cervera's natural objective, was thus open to entry to such a force as his, while we were a thousand miles distant, made our immediate movement toward Havana imperative. I thus reluctantly gave up the project against San Juan and stood westward for Havana."

Shortly after news was received that the Spanish fleet had appeared off Curacao, West Indies, and the squadron, under orders from the department, proceeded to Key West, to which place the flying squadron under Commodore Schley had already been ordered.

TRAILING CERVERA'S FLEET.

Arrangements were then hurriedly made and the flying squadron, augmented by the other vessels under Commodore Schley, was sent off Cienfuegos, where it was believed the enemy would go in, which case an effort was to be made to engage and capture him.

From messages received by the admiral from the department about May 20, it appears that reports had reached the United States that the Spanish fleet was at Santiago; so the department advised Sampson to send immediately word to Schley to proceed to that place, leaving one small vessel off Cienfuegos.

On May 21 instructions were written by Sampson for Commodore Schley and sent to him via the Marblehead regarding the possibility of the Spanish fleet being at Santiago.

The admiral, off Havana, gives copies of orders of battle which were to be followed in the event that Cervera left Santiago. Strict orders were given for screening lights and to see that none were accidentally shown.

The squadron was to cruise generally to the eastward in the day and westward during the night.

OPERATIONS AROUND SANTIAGO.

On May 23, as shown by the report, Commodore Schley expressed the belief that the Spaniards were at Cienfuegos. On the 27th the admiral sent word to Schley, directing him to proceed with all possible speed to Santiago because of information received that the Spaniards were there. The same time orders were sent to have the collier Sterling dispatched to Santiago, that the commodore should use it to obstruct the channel at its narrowest part.

Sampson apparently felt certain of the presence of the Spaniards at Santiago and urged that the harbor must be blocked at all hazards. Schley in the meantime had proceeded to Santiago. It was then blockaded. The admiral congratulated the commodore on his success and directed him to maintain a close blockade, especially at night.

Then follows telegrams from Schley showing that he had recognized the enemy in the port and from Secretary Long to Schley, pointing out that the most absolutely urgent thing was to know positively whether the Spanish was in the harbor. If they were an immediate army and navy movement was to be made.

Meantime Admiral Sampson had made arrangements to proceed to Santiago with a number of his vessels. He arrived there June 1.

Then follows a historical resume of the doings of the fleet while off Santiago. On June 8 the admiral urged upon the department as he had previously done, to expedite the arrival of the troops for Santiago, the difficulty of blockading the Spanish ships daily increasing. On June 10 a dispatch was received showing that the army expedition was temporarily stopped because of the reported observation of additional Spanish vessels in American waters. In a memorandum dated June 15, the admiral says: "The commander in chief desires again to call the attention of commanding officers to the positions occupied by the blockading fleet, especially during the daytime, and it is now directed that all ships keep within a distance of the entrance to Santiago of four miles, and this distance must not be exceeded."

SHAFTER'S CAMPAIGN.

The admiral reproduces the order of battle incidental to the landing of Shafter's army corps June 22, when ships were sent to shell the beach and cover the landing of the men. Sampson again urged vigilance on the part of the blockading squadron.

The admiral here remarks that much trouble was experienced in landing on account of the wandering proclivities of some of the transports, which had to be looked up. Disembarkation was also rendered somewhat difficult by a heavy sea.

It appears that Admiral Sampson was preparing a torpedo attack to hasten the destruction of the Spanish vessels.

On June 30 the admiral received a communication from Major General Shafter announcing that he expected to attack Santiago the following morning, and asking that he (Sampson) bombard the forts at Aguadores. This request was complied with, and on July 1 General Shafter asked that the admiral keep up his fight on the Santiago water front. On July 2 General Shafter urged that an effort be made immediately to force the entrance to avoid future losses, which were already very heavy.

A reply was telephoned from Admiral Sampson, which said the admiral had bombarded the forts at the entrance of Santiago and also Punta Gorda battery inside, silencing their fire and asked whether he (Shafter) wanted further firing on the admiral's part. The explanation was made that it was impossible to force an entrance until the channel was cleared of mines. To this General Shafter replied:

"It is impossible for me to say when I can take batteries at entrance of harbor. If they are as difficult to take as those which we have been pitted against, it will be some time and a great loss of life. I am at a loss to see why the navy can not work under a destructive fire as well as the army. My loss yesterday was over 500 men. By all means keep up fire on everything in sight of you until demolished."

Admiral Sampson then says: "I wrote General Shafter a letter, and began making preparations to counter mine, and, with the object of arranging an attack upon the batteries at the entrance, a visit was arranged to General Shafter, so that the matter might be thoroughly discussed and combined action take place. I had in view the employment of the marines for an assault on either the Morro or Socapa battery, while at the same time assaulting the defenses at the entrance with the fleet."

The sortie of Admiral Cervera's squadron and its destruction on July 3 has been made the subject of a sep-

arate paper and need not be repeated here. This event closes the purely naval campaign, crowning with complete success the anxious work of almost exactly two months.

Want Cuban Independence.

Havana, Oct. 24.—A secret circular has been sent to the presidents of all the Cuban patriotic committees denouncing a large number of Cubans who are looked upon as traitors to the cause of Cuban independence and are charged with being attached to the Americans. The circular recommends a vigorous contest against not only Spanish residents but against Americans as well "who are endeavoring to steal the Cubans' victory."

Don't Like the American Flag.

Havana, Oct. 24.—About 50 Cuban patriotic clubs have been organized in Havana under the management, in a large majority of cases, by physicians, lawyers and other professional men. Many of the members of some of these clubs attended the first meetings wearing the Cuban and American flags, crossed. The presiding officers of several of the clubs ordered that in future only the Cuban flag should be worn.

Killed His Wife and Himself.

Omaha, Oct. 24.—John Melchert, a Chicago photographer employed at the exposition grounds, shot and killed Lillian L. Morris, his affianced wife, and then committed suicide here. Jealousy of the woman was the cause.

JEALOUSY'S BLOODY WORK.

Double Murder and a Brace of Suicides by Two Frenzied Men.

New York, Oct. 24.—Two jealous husbands killed their wives and themselves in Jersey City. Henry Jones, colored, shot his wife to death and then sent a bullet into his brain at their home.

The police had barely completed their investigation and sent the bodies to the morgue when five shots were heard in a house opposite a church as the people were assembling to worship. Garrett French, a locomotive engineer, had mortally wounded his wife and wounded himself so badly that he died within a few minutes. Jealousy was at the bottom of both tragedies.

Philadelphia's Peace Jubilee.

Philadelphia, Oct. 24.—The peace jubilee was fittingly opened with special services of prayer and thanksgiving in all the churches of the city, irrespective of creed and doctrine. Sermons were preached on the inevitable horrors of war and the consequent blessings of victorious peace and there were services of song and worship on these themes.

It's All Smoke.

Paris, Oct. 24.—There is no foundation for the alarmist rumors regarding the relations between France and Great Britain. It is equally incorrect to say that extraordinary measures have been taken at any of our naval ports. The Fashoda yellow book is voluminous, but it does not include Major Marchand's report, which will be published later.

For the Wing Shot Championship.

Cincinnati, Oct. 24.—The inaugural contest for the sportmen's trophy, emblematic of the live-bird or wing-shot championship of American, will be held here Thursday, Nov. 3, at the three days' shooting tournament. The trophy is of gold and silver, value \$500, and a guaranteed purse of \$500 additional will bring here the best live-bird shots in America.

Cause of the Davis Disaster.

Portland, Ore., Oct. 24.—The fatal accident which occurred on the legal trial trip of the torpedo boat Davis was caused by the loss of water in the front boiler. The tubes in the forward end of the boiler became dry and overheated and nine of them blew out of the steam drums. The after boiler appears to be uninjured.

Foundered in a Typhoon.

Astoria, Ore., Oct. 24.—The British ship Glendon has arrived, 29 days from Yokohama. Captain Morrison reports that two British vessels, the Laurel Bank and the Heathfield, from Astoria, encountered a terrible typhoon soon after leaving Yokohama and it is feared that the Laurel Bank is lost.

Snow in Russia.

St. Petersburg, Oct. 24.—Snow has fallen throughout European Russia, except in the Crimea and Caucasus. Navigation of the Volga has been partially suspended, but the Baltic ports are still open.

Movement of French Troops.

Cherbourg, France, Oct. 24.—Orders have been received at the military and naval arsenals here to prepare for the arrival of a large body of troops. The barracks are being hurriedly put in order for their reception.

William's Gift to the Sultan.

Constantinople, Oct. 24.—Emperor William has designed a marble fountain which he proposes to erect in Constantinople as a gift to commemorate his visit and that of Emperor Victoria to the sultan's capital.

DUEL WITH GUNS.

Picture of a Kentucky Beauty Leads to the Shedding of Blood.

Lexington, Ky., Oct. 24.—W. E. Singleton was shot and severely wounded by Major Thomas J. Carson, owner of the famous Dixiana farm. The affair occurred in the former's photograph gallery.

It appears that Singleton, or an assistant named Williams, had made photographs of Miss Mary Warfield, niece of Major Carson's wife, and a belle. He had placed one of the photos in his display case on Main street. A few mornings since the photograph was missing from the case, and when some time later Miss Warfield's younger sister called at the gallery, Singleton remarked that the photo was missing and told Miss Warfield to tell her sister that some one of her friends had stolen it, and that it must be returned or paid for. The message was delivered. Major Carson heard of it. He deemed it an insult. He went to Singleton's place, introduced himself and asked him if he had intimated that his nieces were implicated in the purloining of the picture. Singleton reiterated the statement made to Miss Warfield, and Major Carson struck him with a heavy cane behind the left ear. Singleton ran to a desk and secured his revolver. He fired two shots. Major Carson then drew a 38-caliber Colt's revolver and fired. Singleton fell with a ball in the left abdomen. Major Carson was admitted to bail.

A Negro Lynched.

Tompkinsville, Ky., Oct. 24.—News has reached here of the lynching of Arch Baur, colored, who committed an assault on and attempted to murder Annie Morrison, oldest daughter of Henry Morrison, a prominent farmer of Cumberland county. The members of the Morrison household were visiting in the neighborhood, except the eldest daughter, who remained at home to care for the house. Baur, unnoticed, went direct to Morrison's home. Miss Morrison screamed for help when he entered. She fought the fiend with desperation, but the negro drew a piece of sharp iron, striking her two or three blows on the head and inflicting wounds that may prove fatal. He fled, believing his victim dead.

Bride Only Thirteen.

Richmond, Ky., Oct. 24.—The youngest bride ever known in Madison county has been licensed to wed here. She is Miss Nannie Jordan and is barely 13 years old. Her husband is William Laurison, aged 22, of Powell county.

Hunting For a Wife.

Louisville, Oct. 24.—J. W. Bradley of Horse Cave, Ky., came to this city to seek a wife. Mr. Bradley has been married three times before and has nine children. He is 95 years of age, but is hale and hearty.

Lynching Threatened.

London, Oct. 24.—The town of Shrewsbury and vicinity has been greatly excited over the trial of the Vicar of Ruyton and his wife for cruelty to two orphan nieces, who had been left in their charge. The children had been reduced to the position of drudges, their clothing was ragged and they were fed from a pig tub. The elder child, it was alleged, was strapped and beaten by the vicar's wife and was then kicked by the vicar. Both of the accused were sentenced to four months' imprisonment at hard labor. Dense crowds surrounded the courthouse during the progress of the trial and threats were openly made of lynching.

Drank Poisoned Water.

Joplin, Mo., Oct. 24.—Four persons have died from the effects of drinking water of the poisoned well near Aurora. Several weeks ago a daughter of John Black, a prominent Barry county farmer, was taken ill and her case was pronounced typhoid fever. Other members of the family became ill, and after lingering a few days, died. Mrs. Black a son and two daughters succumbed to the mysterious ailment, and Joseph Black and another daughter are now seriously ill. All physicians are convinced that the trouble is not typhoid fever, but that the well from which this family obtained their water is poisoned.

Sacred Places Renovated.

London, Oct. 24.—The zeal of the sultan of Turkey to renovate every town and village in Palestine through which Emperor William of Germany passes has resulted in even holy places being vandalized. The historical house of Simon, the tanner, where Saint Peter lived has been painted bright blue, and its floors have been laid with colored tiles. Besides this the building has been inclosed by a gaudy fence, while a superb iron screen over a dome of rock, dating back to the days of the Crusaders, has been coated with yellow paint.

Ordered to Paris.

Manila, Oct. 22.—General Whittier, the collector of customs here, has been ordered to proceed to Paris for the purpose of testifying before the United States peace commission there.

LOST IN A HEAVY GALE

Four Barges Cut Loose From
a Tug and Collide.

ONE OF THE CREWS LOST.

After Strenuous Efforts in the Teeth of
a Wild Storm the Others Are Saved
From the Billows—Two Ad-
ditional Boats Wrecked.

New London, Conn., Oct. 24.—During a heavy gale the tug Thomas J. Scully lost the barges Admiral, Camarie, Wyandotte and Atlantic by the tug's bawser parting.

Soon afterward the Admiral sprang a lead and collided with the second barge, which ultimately resulted in the sinking of the four barges. Two men on the Admiral were lost, but the crew of the Scully, by means of a line, rescued seven men, two women and a baby from the other barges. The rescued were taken aboard the tug one by one and the woman with the baby was dragged through the heavy sea apparently little worse for her experience.

An unknown schooner off shore about a mile and a half east of Bartlett's reef light, was also wrecked in the southwest gale and those aboard drowned. The accident was witnessed by several persons at Goshen, but there has been no wreckage washed ashore.

Another Vessel Wrecked.

Halifax, N. S., Oct. 24.—Tugs which have been endeavoring for hours to reach a large, square rigged vessel ashore on Thrum Cap Shoals, have abandoned the effort to save the crew of the unknown craft. The vessel was discovered on the rocks at daylight, having gone ashore in a heavy southwesterly gale. Only stumps of masts are visible from the signal station and five men have been counted on the deck of the stranded vessel.

Railroad Sold.

Arkansas City, Kan., Oct. 24.—The St. Louis, Kansas and Southwestern railroad was sold at auction here by Master in Chancery Hiram P. Dillon, under a decree of the United States circuit court, to satisfy a claim of the Farmers' Loan and Trust company of New York. The line is 60 miles long, running from Arkansas City to Anthony, and was at one time part of the Frisco system. The road and equipment was purchased for \$150,000 by Samuel Baker of Hamilton, Ont., as representative of the creditors.

Satisfied With Brooke.

Washington, Oct. 24.—General Brooke has made no mention to the war department of any discontent expressed by Porto Ricans over the retention in office by him of certain officials of the defunct Spanish administration. The department is satisfied that the general is managing affairs in Porto Rico with wisdom and prudence, and it would require very strong representations to induce it to interfere with the execution of his plans.

Exchange of Money Orders.

Washington, Oct. 24.—The postoffice department has arranged with the postal department of Japan for the exchange of money orders between this country and Korea and on and after Jan. 1, 1899, money orders may be drawn in the United States for payment at the Japanese postoffice at Chemulpo, Fusan, Seoul, Yucusan and Mukho, in Korea, and in like manner at those offices for payment in the United States.

Return of Disabled Soldiers.

San Francisco, Oct. 24.—The United States transport steamer Rio de Janeiro arrived from Manila via Hongkong and Nagasaki with sick soldiers on board, supposed to number about 150. The vessel was sent to the quarantine station at Angel Island, and particulars of her voyage are unobtainable at this hour. The Rio brought sick and wounded soldiers from Manila. On the voyage home eight soldiers died.

Natives Repulsed.

Pretoria, Transvaal Republic, Oct. 24.—The Magato Kaffirs have been repulsed by the force of burghers sent against them. The burghers chased them into the mountains, killing several of the natives. The burgher artillery did good execution and the Transvaal forces suffered no loss. The fact that the natives attacked the burgher is regarded as a declaration of war.

Emperor of China's Ailment.

Peking, Oct. 24.—The Emperor of China is believed to be afflicted with an incurable kidney disease, though it is probable that he will linger for a considerable time.

German Troops Reviewed.

Shanghai, Oct. 24.—Prince Henry of Prussia paraded the troops at Tsin Tau fort, in honor of the birthday of the Empress of Germany.

.....DEMOCRATIC TICKET.....

FOR CONGRESS,
 MORDECAI WILLIAMS,
 of Boyd County.

THE Belleville (Ill.) News-Democrat says: "It is indeed a sad thing to note that more Americans were killed at Virden than were killed in destroying the Spanish fleet. Think of it! We waged war against the Spaniards because they were oppressors of Cubans. What do we do with gigantic oppressors of workmen in America? Allow them to replace already underpaid miners with Southern negroes."

ATTORNEY GENERAL GRIGGS denounced as "buzzards" all those who criticize Alger and who think soldiers entitled to decent food, careful nursing and healthy camps. It is evident that the boys in blue who could not eat decayed meat and who died for lack of the common necessities of life were not "buzzards," remarks the Chicago dispatch. But Attorney General Griggs must have thought them such or he would not have defended Alger for furnishing them with "food fit only for carrion crows."

CAPTAIN E. V. WALSH of the First Missouri volunteers, is an officer who has evidently not yet learned that Alger is "all right" and that the war department is a "model of efficiency." This information has not reached St. Louis, or if it has, not been communicated to Captain Walsh at any rate, for, after his men had been kept at Jefferson barracks for two days in a condition of semi-starvation and with no prospect of forthcoming rations he marched the whole company out of the camp and ordered them to go home and hunt up something to eat. They went. Captain Walsh, it is intimated, will have to face a court-martial in consequence.

MARK HANNA has sounded an alarm. He frankly tells his fellow-Republicans that there is a probability of the next House of Representatives being Democratic. "This is true," adds the New York World, "and no wonder. With the Dingley bill producing less revenue than enough to pay the ordinary expenses of the Government; with the scandals of the war on the Republican party's head; with the President's shameful abuse of his appointing power in filling the vital departments of the army with incompetents who had pulled; with the records of sickness and death in all the camps, attributable solely to incapable administration; with Alger still holding office and controlling the army; with an exasperating war-revenue measure which even with the aid of the commerce-crippling Dingley bill produces a deficit of nearly \$60,000,000 during the first three months of the fiscal year—with all these facts in evidence it will surely be astonishing if the next Congress is not Democratic."

The Fiscal Court of Nicholas County has issued an address to the voters of the county asking them to authorize the issue of bonds to pay for the turnpikes and thus settle the vexatious question. The people of Mason County have the same question to settle. Here is what the court says in its address:

We appeal to the tax-payer, whether his tax be large or small, to take the business like and patriotic view of the matter, and to vote and act so that we may be relieved of the troubles that beset us, and so that we may maintain the reputation for peace and good order that we have heretofore borne, and which is the aim of all good citizens. Those encouraging lawlessness, though not active participants, are as much to blame, morally, as those who commit the deeds. There is much to gain by voting the bonds; there is nothing to gain by defeating them, for surely, notwithstanding confusion in sentiment, expensive litigation and midnight wrecks of property, this property must eventually be paid for. The Constitutional provision "that no man's property shall be taken or applied to public use without just compensation having been previously made to him," cannot be avoided. Remember that those voting at the November election, and failing to vote on the question, will in all probability have their votes counted against it.

Pugh's Many Promises.

(Flemingsburg Times-Democrat.)

PUGH is having a hard time explaining why he promised so many different men the same postoffice when he knew he could not deliver the goods. And the meanest thing of it all was for him to throw the responsibility on the county committees of the various counties. But those who were deceived by him once are "onto his curves," as the base ball boys say.

THE BULLETIN is indebted to Captain Alex Johnson, proprietor of the new fish store at 228 Market street, for a bountiful supply of fish and oysters.

ROUGH TREATMENT.

Second Kentucky Soldiers in Bad Plight at Lexington Camp—Thinly Clad and Without Blankets.

LEXINGTON, Ky., Oct. 21.—Camp Hamilton is dreary to-night. For twenty-four hours rain has fallen. The ground is thoroughly wet and provokingly muddy. To-night is very cold, so cold, in fact, that the men find it hard to keep warm under their blankets.

The Second Kentucky, in camp at Loudon Park, is in a bad plight, and the men are really suffering. General Wilson issued an order this morning requiring every man and officer of the regiment to remain in camp, and instructed Provost Marshal Gaines to arrest all Second Kentucky men seen on the streets after 4 o'clock this afternoon. Colonel Gaither explained to General Wilson that his camp is unfit for men on such a night and asked that he be given lumber with which to make floors. This was refused. The result is that the men who have neither overcoats nor thick blankets are sleeping on the damp ground with only one blanket and a poncho. Major Surgeon Dade has made a protest to General Wilson against the condition of affairs. Some of the men were minus ponchos.

"It is shameful," he said to the Enquirer to-night, "that men are treated this way when there is no need of it. If we were on the verge of a battle and such hardships were necessary there would be some excuse, but we are here to be mustered out of service. We have no winter clothing or equipments. The majority of the men can provide themselves with comfortable places and should be permitted to do so. We have no duty to perform. There is nothing for us to do but loaf around until we are mustered out of service. I am satisfied that if this weather continues two days the result will be sickness and death to many men who are now in perfect health."

"The reason that the Second Kentucky boys are ordered to remain in camp at all times is because of depredations committed by them," said a staff officer. "Complaint has been made that they have injured private property."

The Useful Banana.

(New York Times.)

Immense fortunes have been made out of the banana business. Revenues do not accrue alone from the sale of the fruit, for the leaves are used for packing; the juice, being strong in tannin; the wax found on the underside of the leaves is a valuable article of commerce, manilla hemp is made from the stems, and of this hemp are made mats, plaited work, and lace handkerchiefs of the finest texture; moreover, the banana is ground into banana flour. The fruit to be sold for dessert is ripened by the dry warmth of flaring gas-jets in the storage places in which it is kept, and immense care has to be taken to prevent softening or over-ripening. The island of Jamaica yields great crops of this useful and money-making fruit.

WHAT WE GOT

When Puerto Rico Passed Into Our Possession—Some Interesting Statistics.

(New York Herald.)

Puerto Rico is an island, 95 miles long and 35 miles wide, containing 3,668 square miles, about half the size of New Jersey. Vieque, an island 13 miles east of Puerto Rico, is 21 miles long and 6 miles wide.

The population is about 950,000, of which 300,000 or more are negroes and 90,000 native Spaniards. Vieque has 6,000 inhabitants.

The principal cities are San Juan (30,000), Ponce (15,000), Mayaguez (20,000), Aguadilla (5,000), Arecibo (7,000), Fajardo (9,000), Nagueabo (2,000), and Arroyo (1,200).

There are 470 miles of telegraph lines and 137 miles of railroads, with 170 miles under construction.

The land along the coasts and in the valleys is generally level and fertile. The mountain ranges contain some gold, copper, lead and coal.

Puerto Rico's climate is semi-tropical, but generally healthful. There is little yellow fever and few other contagious diseases, despite bad sanitary conditions in the cities.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from frightful death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular sizes 50 cents and \$1. Trial bottles free at J. J. THE Messenger says: "There is every indication that Dover is soon to have a new Methodist Church. We understand that a party of C. and O. men were in Dover Thursday, and, after an inspection of the building, pronounced it unsafe and for no person to go about it. The building is on the south side of the C. and O. tracks in Dover, and it is rumored that the company will subscribe liberally towards building a new church."

Isopportunity Deaths.

Julius Caesar was assassinated when he had almost completed the task of consolidating the administration and dominion of the Roman empire, and his death opened the way to that despotism and corruption which ultimately uided his work. Henry of Navarre was killed when he had almost healed the differences between Catholic and Protestant, which subsequently rent not only France, but Europe, and William the Silent also fell when he was on the point of uniting the Netherlands provinces into a compact barrier against the encroachments of Spain.

In English history Lord Clive died at the moment when he was the one man who could have saved the American colonies and kept the Anglo-Saxon race united, but there is the case of Mirabeau. He was literally the one man in France who could have averted the horrors of the revolution, saved and reformed the monarchy and so spared Europe the murderous career of Napoleon and all the devastation it brought. If he had lived ten or even five years longer, the history not only of France, but of Europe and the world, would have been different. It is in fact sufficient to say that he would have made both Robespierre and Napoleon impossible.—Strand Magazine.

MODEST-PRICED

DRESS GOODS.

AT 50 CENTS.

We show twenty-seven styles—two long shelves full. Foreign made—at least many of them are, and all are worthy stuffs. A few minutes testing of the styles and qualities in this section will do more than a column of talk. The goods are 36 to 42 inches wide.

FANCY CHEVIOTS AT 25 CENTS.

A very unusual lot of goods considering the upward trend of prices. They look like the Scotch goods and are suitable for either women's or children's wear.

COLORED SERGE 29c.

Forty-inch all wool Serge—one of the stand-by plain fabrics. This is the old price and we'll continue it until this lot is gone.

COVERT CLOTH AT 75c.

Fifty-two-inch satin-faced Covert, made nicely like the high-priced foreign goods. These come from a factory that never uses anything but wool, not a cotton thread. You will like them.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all-run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate the stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50c. at J. J. Wood & Son's drug store.

The Reception Saturday Evening a Very Pleasant Affair—New Directors Chosen—Other Matters.

The reception at the Y. M. C. A. Saturday evening in honor of the new General Secretary Mr. W. G. T. Baker was a very enjoyable affair. The seating capacity of the parlors was not large enough to accommodate all who were present. In his welcome address, Rev. J. C. Molloy certainly voiced the sentiment of everyone who has the welfare and happiness of the city's young men at heart. The young men are the hope of the city, State and Nation, and the importance of leading the young men into lives that would reflect credit upon themselves, their city and Nation should be realized by all. He was glad to welcome Mr. Baker because he came as a representative of a great association that is engaged in the good work of trying to uplift the young men of the country and make of them all that they ought to be, physically, morally and spiritually.

In his response Mr. Baker urged his hearers not to forget that they all had a part to do in this work, and that the only way to insure success is for each to do his part.

The music and recitations were especially enjoyable features of the program. Mr. Flora, who has lately engaged in business in this city, sang a solo. He is a member of "The Kentucky Colonels," a musical quartette, and possesses a voice of great power and richness. His singing caught the crowd, and he had to respond to an encore.

All in all it was a very pleasant evening.

At the meeting of the Board of Directors Saturday evening, plans were discussed for the fall and winter campaign. The reading room is to be provided at once with the best periodicals, and the gymnasium and bath room are soon to be reopened.

Messrs. A. D. Cole, George Barbour and H. E. Gabby have been elected as Directors. Mr. Cole was chosen Vice President of the Board Saturday evening.

THE remains of the late Dr. Ireland, whose death occurred last Thursday at Glen Este, O., were brought here Sunday afternoon and interred in the Maysville cemetery.

A business man is not the most patient creature in the world. He cannot wait to hear any long-drawn-out story of the cause of his ailment. He doesn't care two straws about a fine spun theory of how he should treat himself. He may be predisposed to scrofula, or consumption. "That," he will tell you "has nothing to do with the case." He wants to be well. If he can be cured, write out a prescription and send in your bill! So, here's the first part of the proposition.

Dr. Pierce's Golden Medical Discovery is a microbe hunter and killer. Many persons of scrofulous blood, encourage the breaking out of unsightly sores, to prevent the disease going to the lungs. There is no need of this state of dread and discomfort. Purify the blood. It can be done. "Golden Medical Discovery" will cure 98 per cent. of all consumptive cases, also of all other lingering bronchial, throat and lung diseases.

A MENACING ATTITUDE

Assumed by Insurgent Forces
In the Philippines.

THEY MAY STORM MANILLA

Troops Have Had No Pay For Months,
Supplies Growing Scarce, and the
Men Are Desperate—Against
American Annexation.

Manilla, Oct. 24.—The attitude of the insurgent troops has become very menacing. Their supplies are growing scarce and they are becoming desperate.

Their leaders assure the troops, who have had no pay for months, that they will soon capture Manilla. The Filipino newspapers insist upon absolute independence and denounce annexation to the United States or an American protectorate with equal energy. The American authorities, naval and military, are taking precautionary measures.

The steamer San Nicolas, which left Manilla flying the American flag, was compelled to return by a Spanish gunboat, whose commander offered as a plea for his action that the crew consisted of Filipinos, who might smuggle contraband articles. The San Nicolas, after reporting her experience, sailed again, followed by the United States gunboat McCulloch. The insurgent schooner Mauriola entered Manilla harbor flying the insurgent flag, which was promptly hauled down by the Americans.

The commission of Spaniards sent here recently by General Rios, Spain's chief representative in the Philippines and governor general of the southern portions of the archipelago, arranged a temporary commercial convention. Accordingly inter-island traffic was resumed, but it is now again interrupted, this time by orders from General Rios.

Not the Proper Time.

Washington, Oct. 24.—Reports received at the war department from the American military commissioners in Havana indicate that the season had not yet sufficiently advanced in Cuba to make it even reasonably safe to send any large number of American troops to the island just now. According to the latest advices from General Meade, president of the American commission, it probably will be Dec. 1 before additional troops will be required in Cuba. This statement, in connection with the assurances that the Spanish officials are earnestly trying to complete the evacuation of the island has tended to reconcile the authorities to a postponement of the original date of the completion of the evacuation a month beyond the date originally fixed upon.

To Examine Assistant Surgeons.

Washington, Oct. 24.—An order has been issued by the war department directing the surgeon general to convene the board of medical officers to examine acting assistant surgeons now in the service and candidates for appointments. At the outset of the war and up to the present time appointments have been made by the surgeon general upon professional and such other endorsements as the candidates have been able to present. This course was necessary because of the urgent necessities of the service.

A Change Ordered.

Washington, Oct. 24.—Secretary Alger has just ordered that the Fourteenth and Fifteenth regiments of Pennsylvania volunteers be mustered out instead of the Second and Third regiments from that state. The Fourteenth and Fifteenth are now at Camp Meade, while the Second and Third are in Philadelphia. It is understood that the change was made after consultation with the state authorities. The Second and the Third regiments are understood to be destined for Cuban garrison duty.

A Precautionary Measure.

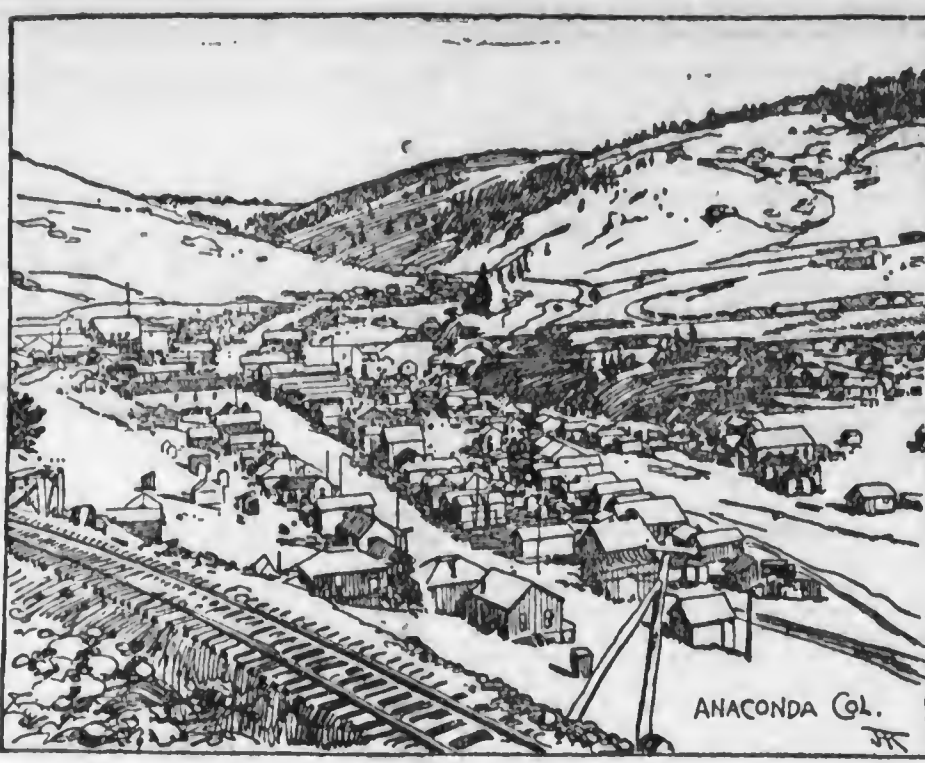

Washington, Oct. 24.—Acting Surgeon General Ballhache of the marine hospital service ordered the extension of the maritime quarantine service until Nov. 15. The action is of a precautionary nature and designed to avoid any possibility of entry of yellow fever from the ports in the West Indies. The regular inspection period heretofore has been from May 1 to Nov. 1, but the 15 days at the close as well as antedating the season last spring by commencing April 1 are felt to be measures of caution.

Military Postoffice at Cavite.

Washington, Oct. 24.—The postoffice department has ordered the establishment of a military postoffice station at Cavite, Philippine islands, near Manilla. It will be known as Military Station No. 2 of the San Francisco postoffice and will accommodate a large number of our troops stationed at the arsenal and thereabouts.

War Against the Americans.

Havana, Oct. 24.—The Cuban general, Rego, has arrived at Havana from Puerto Principe, and is preaching in the cafes and the insurgent camps near the city a holy war against the Americans. He has interviewed many of the leaders of the Cubans and has urged the carrying on of war against Americans if independence is not at once granted to Cuba.

SCENES IN COLORADO—POINTS VISITED BY MEMBERS OF THE NATIONAL PRESS ASSOCIATION.

Sydney Smith's Joke.

Sydney Smith was very happy in his country life, and his children caught his spirit of delight over common things. They loved animals and spent long hours in training them. One little beast, a baby donkey, became under their tuition perhaps the most accomplished of his species and unconsciously gave rise to the fame of Sydney Smith. The donkey was a well educated chap. He would walk up stairs, follow the family in their rambles like a dog and when they entered his meadow run to meet them with ears down and tail erect, braying joyously.

One day, when Billy's head was crowned with flowers and he was being trained with a handkerchief for a bridle, Mr. Jeffrey unexpectedly arrived. He joined in the sport and to the children's infinite delight mounted Billy.

Thus he was proceeding in triumph when Sydney Smith and his wife, with three friends, returned from a walk and took in the festive scene. The great man advanced, with extended hands, and greeted his old friend in an impromptu which has become familiar to the reading world:

Witty as Horatius Flaccus,
As great a Jacobin as Gracchus,
Short, though not as fat as Baachus,
Seated on a little jackass!

—Yonh's Companion.

The Death of Coaching.

The coaching system died a lingering, a lamentable death. I can remember something of a few coaches in remote districts which longest escaped strangulation, and memory of those distant days has been sweeter without them. They resemble what Nimrod describes as the obsolete, old fashioned coach of his boyhood, drawn by dispirited, ill fed jades over long stages. One of his paragraphs well describes what used to make my blood boil with impatient fury, imbibing the joy of returning home for the holidays, and deepening the depression of the schoolward journey:

"The four horse whip and the Nottingham whipcord were of no avail over the latter part of the ground, and something like a cat-o'-nine-tails was produced out of the boot, which was jocularly called 'the apprentice,' and a shrewd apprentice it was to the art of torturing, which was inflicted on the wheefers without stint or measure, but without which the coach might have been often left on the road."

No; the last of the road coaches—cornputio optimi—disappeared and left none to mourn them.—Blackwood's Magazine.

Bribing Spurgeon.

The autobiography of the late Rev. Charles H. Spurgeon contains an account of what may be termed an early business venture and its influence on his character.

Spurgeon was brought up on Watt's hymns, but not altogether willingly. His grandmother coaxed him with money to learn them. At first she gave him a penny, but when she saw how easily it was earned the old lady reduced the prize to a halfpenny and then to a farthing. There is no telling how low the amount per hymn might have fallen, but just at this time his grandfather made a discovery which seemed more desirable to Spurgeon.

He discovered that his house was overrun with rats and offered his grandson a shilling a dozen for all he could kill.

The occupation of rat killing gave him more money than learning hymns. "But," Mr. Spurgeon characteristically says, "I know which employment has been the more permanently profitable to me."

All Business.

"I'm afraid our new son-in-law isn't much of a business man," she said. "Don't you worry about that," replied the old gentleman. "If he doesn't know how to make the best of a bargain, I don't know who does. The day before the wedding he discovered that Minnie had a freckle under her left ear, and he made me add \$1,000 to her dowry on the ground that the goods weren't entirely in accordance with the invoice. I was almost tempted to believe that he wasn't a nobleman at all, but a New England Yankee in disguise."—Chicago Post.

Stavanger, Norway, Oct. 24.—The Norwegian steamer Colin Archer, from New York for Stockholm, is ashore in a critical position at Aare Jaerden.

The Cincinnati Leaf Tobacco Warehouse Company, in its circular for the week, has the following:

The tobacco market has shown more activity the past week and has given the sellers more encouragement for the fall trade than was anticipated last month. Stocks are reduced to such an amount that even one factory could use the entire stocks in the Louisville and Cincinnati markets, which we estimate at about 12,000 hbds. of white burley. The stocks held by the manufacturers can not be obtained, but from outside appearances they probably have a large supply on hand, but the question to be considered is: "How much will they require from our market before the new crop can be secured and cured ready for use?" It will take fully four months before the new crop can be successfully used by the manufacturers, and, therefore, we believe that there will be use for all the old stock on hand, and that our new year will open up with a clean market, and with less old tobacco on hand than for a great many years.

The old tobacco being marketed at this time is excellent tobacco and keeps well, and will all be used by the manufacturers, but prices may not reach the figure expected by the holders. Low grades and red tips are still selling high, and there is a strong demand, but when the better grades are reached there appears to be no demand only at a small advance over the medium tobacco.

The reports from the country are that a great deal of house-burn will be found in the crop, and it will not prove as desirable a crop as the old one. Some new tobacco was sold in the market the past week. One crop of medium color and high winter case brought an average of \$6.52 round, and no doubt a few crops could be sold at good figures at this time. The general impression is that the crop will be marketed early, as the past three years have proved that the redrying of tobacco by the growers does not pay since the system of steam drying by manufacturers has been adopted.

Special Election!

STATE OF KENTUCKY,
MASON COUNTY COURT,
April Term, August 9, 1898.

Whereas, It is the sense of the Fiscal Court of Mason County that sixty thousand dollars in 4 per cent. bonds should be issued by said county with which the proceeds thereof to purchase and make part of the free turnpike system of the said county the following named turnpike roads, that is so much of said roads as may be situated in Mason County, viz: Maysville and Lexington, Maysville and Mt. Sterling, Mason and Bracken, Helena, Dover and Minerva, and Maysville and Helena roads. No part of said bonds to be issued, unless the Maysville and Lexington, Maysville and Mt. Sterling, and Mason and Bracken roads can be simultaneously purchased wholly from the proceeds of said bond issue, after deducting therefrom the several amounts agreed by this court to be paid for the three other above named roads, viz: The Helena, the Dover and Minerva, and the Maysville and Helena; the whole amount to be paid for the aforesaid six roads not to exceed \$60,000 sixty thousand dollars. Be it therefore ordered by this court that an election be called and held in Mason County on the day of the next regular election to-wit:

NOVEMBER 8, 1898,

and that a poll be opened in each of the respective voting precincts in said county for the purpose aforesaid; the proposition to be submitted to the voters in the form of the question to be printed on the ballots to be used at said election, to-wit: "Are you in favor of issuing bonds for the purchase and maintenance of the turnpike roads of this county, free of toll to the traveling public?" And the Sheriff of Mason County is ordered and directed by this court to advertise said election and the object thereof for at least thirty days next before the day thereof in some newspaper having the largest circulation in the county, and also by printed handbills posted up at not less than four public places in each voting precinct in the county and at the court house door.

STATE OF KENTUCKY,
MASON COUNTY, }
I, C. L. Wood, Clerk of the Mason County Court, do hereby certify that the foregoing is an exact copy of the order of the Mason Fiscal Court made as it appears of record in Order Book No. 2, page 74, Mason County Fiscal Court Records.

Given under my hand this August 10th, 1898.

C. L. WOOD, Clerk.

By A. F. WOOD, Deputy Clerk.

In compliance with the above order of the Fiscal Court of Mason County, Kentucky, I, S. F. Perrine, Sheriff of said county, will, at the next regular election held therein, on

TUESDAY, NOVEMBER 8, 1898,

open a poll at each and all of the voting precincts in said county, and hold an election therein, for the purpose of taking the sense of the qualified voters of said county as to whether the county of Mason, State of Kentucky, shall, subject to the conditions of the foregoing order of Mason Fiscal Court, issue bonds to the amount of Sixty thousand (\$60,000) bearing 4 per cent. interest, the proceeds of said bonds to be used for the purchase of the Helena turnpike road, the Dover and Minerva, the Maysville and Helena and the Mason and Bracken turnpike roads, and so much of the Maysville and Lexington and Maysville and Mt. Sterling turnpike roads as may be wholly situated in Mason County. All legal voters in said county shall be privileged to vote at said election. The same officers that held the regular election shall hold this election, which shall, in all respect, be held in accordance with the general election laws of this State.

Witness my official hand, this October 3, 1898.

S. F. PERRINE,
Sheriff of Mason County, Ky.

Special Election!

STATE OF KENTUCKY,
MASON COUNTY COURT,
August Term, Monday, August 8, 1898.

On this day, C. D. Newell, County Judge of Mason County, presented and filed in open court the petition heretofore delivered to him, signed by (49) nine hundred and forty-nine legal voters of Mason County, and asking for a vote in said county upon the proposition to have free turnpikes and gravel roads in said county, said petition being signed by a total number of legal voters of said county in excess of (15 per cent.) fifteen per cent. of the votes at the last preceding general or county election in said county. Be it therefore ordered that an election be held in said county at the next regular election therein, to-wit:

NOVEMBER 8, 1898,

to take the sense of the qualified voters of said county upon the proposition to have free turnpikes and gravel roads therein, and the Sheriff of Mason County is directed to open a poll at each and all of the voting precincts in said county for the purpose of taking the sense of the qualified voters on the proposition aforesaid.

STATE OF KENTUCKY,
MASON COUNTY, }
I, C. L. Wood, Clerk of the County Court of the County and State aforesaid, do hereby certify that the foregoing is an exact copy of the order as made by the Mason County Court at its August term, August 8, 1898, as of record in Order Book No. 1, page 116, Mason County Court Records.

Given under my hand this August 10, 1898.

C. L. WOOD, Clerk.

By A. F. WOOD, Deputy Clerk.

A striking contrast you will always find in both the moods and the shirt fronts of those who have had their laundry work done at the POWER LAUNDRY, and the man who has had his done at a less efficient one. The same old back number methods, where they send home your shirts, collars and cuffs with frayed edges and torn button-holes. Our laundry work is faultless.
